Planning Commission Members reviewed the following ordinances:

- 150 Shoreland Management
- 152 Zoning
- 153 Stormwater Management
- 152 Appendix – Short Term Vacation Rentals

A discussion on the standards for construction material and exterior finishes. The language is vague but commissioners felt it may be better to be vague and it would make people think about what they are doing. A long discussion on what might be attractive could be very different for each individual. The application could have a checkbox that states “accessory building materials complement the main building.” After discussion, the commissioners felt it should stay the same.

As the commissioners reviewed the ordinances, several small changes were made.

Adjourn 8:15 p.m.

Valerie Martin, Zoning Officer/Secretary
